Overview

If a quark – in science – is the building block of all matter, then Quark – the company – is the building block of all content.

Since 1981, we've been pioneers in desktop publishing, digital publishing and content automation. Four decades later, we're still focused on helping students, independent designers and global enterprises create brilliant content – and that begins with QuarkXPress.

With the world's most powerful page layout and digital publishing software at your fingertips, your ideas become compelling visual realities. Produce gorgeous print publications, large documents and flex websites among many other content experiences.

With its speed, reliability and multitude of time-saving features across its integrated tool sets, QuarkXPress ensures maximum productivity. But most important, you're free to concentrate on unleashing your creativity – to see where that aha moment, the spark of inspiration, leads.

Brilliant content begins with QuarkXPress.

Content Design Possibilities

With QuarkXPress at your fingertips, the blank screen gives way to brilliant content. Both the creative professional and the business user will benefit from all the capabilities that span both print and digital formats. These are just some of the possibilities.
